OBJECTIVE

Full Stack Developer with experience building scalable web applications using React.js, Next.js, Node.js, Express.js, and MongoDB. Developed end-to-end solutions including authentication systems, REST APIs, admin dashboards, and cloud deployments. Passionate about backend engineering, distributed systems, and building production-ready applications.

EXPERIENCE

Software Developer Intern | Crescent Infotech 12/2025 – 03/2026 | Erode, Tamil Nadu

- * Developed responsive web interfaces using MERN Stack, improving user experience across desktop and mobile devices.
- * Collaborated with developers through GitLab-based workflows and Agile sprint planning.
- * Assisted in API integration and backend feature implementation using Node.js and Express.js.
- * Participated in client requirement analysis and translated business requirements into technical solutions.

Software Developer Intern | VELGA 07/2025 – 07/2025 | Erode, Tamil Nadu

TECHNICAL SKILLS

Languages : JavaScript, SQL

Frontend : React.js, Next.js, Tailwind CSS, HTML5, CSS3

Backend : Node.js, Express.js, REST APIs, JWT Authentication

Database : MongoDB, MySQL

Cloud & DevOps : AWS, GitHub Actions

Tools : Git, GitHub, VS Code

EDUCATION

SSM College of Engineering, Namakkal, Tamil Nadu, 2022 – 2026
B.Tech – Information Technology (CGPA: 7.94/10)

Govt Boys Hr. Sec. School, Namakkal, Tamil Nadu, 2020 – 2022
Higher Secondary (Computer Science)

PROJECTS

Knowledge to Intelligence Platform

React.js | Node.js | Express.js | MongoDB | JWT

- Developed a full-stack knowledge management platform enabling users to create, organize, and access structured learning resources.
- Implemented JWT-based authentication and role-based authorization, securing user and admin operations.
- Designed and developed RESTful APIs using Express.js and MongoDB for content management and user operations.
- Built reusable React components and optimized state management using Context API, improving maintainability and scalability.
- Structured backend architecture using the MVC pattern, reducing code duplication and improving development efficiency..

Yuva's Pet Care

Next.js | MongoDB | Node.js

- Designed and developed a veterinary consultation platform connecting pet owners with veterinary professionals.
- Built appointment booking and consultation management workflows to streamline online veterinary services.
- Developed dynamic disease information pages with structured content management.
- Created responsive UI components using Mantine UI and Next.js, ensuring cross-device compatibility.
- Improved page load performance and SEO through Next.js server-side rendering and routing optimizations.

Contact Management Application

React.js | Node.js | Express.js | MongoDB | JWT

- Developed a full-stack contact management application enabling users to securely store, organize, and manage personal and professional contacts.
- Implemented JWT-based authentication with login and signup functionality, ensuring secure user access and session management.
- Designed and developed RESTful APIs for contact creation, retrieval, updating, and deletion (CRUD operations).
- Integrated MongoDB for persistent data storage, allowing users to manage contacts with detailed information such as name, phone number, email, address, and notes.
